## Special Seminar

### "Nutritive value of grass silages in ruminant production systems"

**Elisabet Nadeau, Associate Professor**

**Animal Environment and Health Department  
Swedish University of Agricultural Sciences**

**462 Plant Sciences**

**12:30 to 1:30 pm**

**April 13, 2018**

**Elisabet Nadeau** is currently focusing on silages, use of additives and forage utilization by ruminants. She has a joint appointment with The Rural Economy and Agricultural Society "Hushållningsällskapet Sjuhärad" where she works with farm advisors to transfer knowledge onto Swedish dairy farms.
